

To whom it may concern

We are very pleased to write this letter of reference on behalf of AFB Bank.

The purpose of this letter is to recommend Fominov Consulting based on our experience with the company. Our bank was extremely pleased with the quality of service and products they were able to provide. We plan to work with them again, and can recommend them without reservation to others in need of similar improvements.

The scope of their work included the implementation of Nutanix Flow and its integration with virtual NGFWs from FortiNet. At the end of the project the network infrastructure has been significantly simplified, while at the same time increasing the level of control and security within the virtual infrastructure. The security rules management interface allowed to intuitively monitor compliance with them and minimize the time required to resolve emerging problems. All of the above and many other functions now are managed from a single, easy-to-use, intuitive interface. This is a big advantage as it significantly reduces administrative overheads, as well as reduces amount of time for troubleshooting of potential problems.

We are happy to recommend Fominov Consulting to you, and trust that your cooperation with them will be as positive like ours.

If we can answer any additional questions about our experience as a customer, please feel free to contact us.

Sincerely,

/Acting CEO/

Lala Guliyeva
